

Project Management

AgilePM[®] Foundation and Practitioner (Online)

Course Details

Price

£1,995.00

Length

5 full days (09:00-17:00)

Course Overview

The AgilePM[®] course is aimed at aspiring and practicing project managers who are adding to their knowledge of traditional approaches such as PRINCE2, or who are operating in an agile environment and need to be able to run projects in more complex and scalable situations. AgilePM[®] offers a practical and repeatable methodology that achieves an ideal balance between the standards, rigour and visibility required for good project management, and the fast pace, change and empowerment provided by Agile.

This course is delivered virtually through the GTA, tutor led in real time.

Please note that if this course is being delivered face to face the deadline for applications is 10 days prior to the course start date.

AgilePM® covers the certification by APMG and the DSDM Consortium and the scheme aims to address the needs of those working in a project-focused environment who want to be agile.

The AgilePM® certification course will:

- Explain how to lay the foundations for successful agile projects
- Explain how an agile project is managed
- Clarify the different management styles needed for successful agile projects (compared to "traditional" projects)
- Provide integration with PRINCE2® and other project management methodologies/frameworks.

This five-day course has been re-structured to suit the v2 handbook and covers the Agile Foundation & Practitioner syllabus, including the following topics:

- The fundamentals and the philosophy
- The principles
- Preparation
- The lifecycle and products
- Team structures
- Roles and responsibilities
- Communication
- MoSCoW and Timeboxing
- Lifecycle configuration
- Estimation and measurement
- Quality and maintainability
- Planning, control and risk
- Implementing Agile Project Management

Delegates are required to spend approximately 10 hours studying pre-course materials in order to be well prepared for the course.

Benefits

The AgilePM® course explains how to lay the foundations for successful Agile projects and manage an Agile project from start to finish, enabling delegates to become immediately productive as a project manager.

You will:

- Gain an understanding of agile and agility and the ability to apply the relevant project management method, leading to successful agile projects
- Promote trust and close co-operation between the business and developers to give the business ongoing visibility into what is happening
- Combine knowledge of more traditional project management methodologies with agile to better adapt to a changing business environment
- Improve time-to-market and project success rates while simultaneously accelerating results by encouraging stakeholder involvement, feedback and effective controls
- Deliver change faster, at a lower cost and with lower risk by continually validating project milestones against business objectives
- Achieve better communication and control over projects and adapt project plans without disrupting the project budget, timescale and scope

The AgilePM® Foundation and Practitioner course complements and works with existing corporate processes such as PRINCE2®, quality and audit processes which improves rigour and visibility around project management, leading to a proven track record of successful delivery in a corporate environment.

Prerequisites

There are no pre-requisites for the AgilePM® foundation examination. Candidates must achieve a pass at AgilePM® foundation level before completing the AgilePM® practitioner examination. The DSDM Atern Foundation and Advanced Practitioner certificates are also acceptable pre-requisites for the practitioner exam.
