

Digital Skills

AI for Insurance Professionals

Course Details

Price

£155.00

Length

2 hours 30 minutes (09:00-11:30)

Course Overview

This Insurance-focused course will explore how AI is already influencing Underwriting Support, Claims Workflows, Compliance Monitoring and Risk Management within Insurance organisations.

The course is suitable for Insurance Leaders, Compliance and Risk Teams, Underwriting and Claims Professionals, and Board Members who need a clear, non-technical understanding of AI's impact on insurance operations.

Course Content

Using real-world examples, this session will explain where AI can add operational value today and where caution is required. The emphasis is on Governance, Accountability and Regulatory oversight rather than technical implementation.

Delegates will explore how AI affects judgement, decision support and responsibility in insurance contexts, including the role of human oversight, documentation and auditability.

Next Steps

If you would like to book a place on this course please click on the **'Book Course'** button to the right of this page and login or register for a user account to complete your booking(s). Any queries please do not hesitate to contact us via admin@gta.gg or call us on 01481224570.

If no date is scheduled for this course at the present time please click on the **'Register Interest'** button and login or register for a user account so that we can add you to our course interest register. This register allows us to contact our tutors and finalise dates for a course as soon as we have a few people who have expressed their interest, so the more delegates who register their interest, the sooner we can schedule a particular course.
