BCS Certificate in Modelling Business Processes (Online)

Course Details

Price

£2,600.00

Length

3 full days (09:00-17:00)

Course Overview

In order to deliver radical and beneficial change, business analysts must be able to identify, evaluate and improve business processes.

The use of modelling techniques facilitates a methodical and effective approach to defining change requirements. This allows public and commercial sector organisations to achieve significant improvements in the efficiency of their operations and the effectiveness of their product and service delivery. This course will help Business Analysts deal with these challenges. It will equip you with the process modelling skills that are fundamental to the successful improvement of the business.

This course is delivered virtually through the GTA, tutor led in real time.
