## Course Overview

Put ISO 9001 into context with this one-day online certified Foundation training course.

Get a detailed overview of the quality management standard and learn the 'what' and 'why' of ISO 9001. Delegates will learn how to adopt the quality management mindset, making it easier to map processes and frame ways of working in line with the ISO 9001:2015 standard. A QMS (quality management system) touches every functional area within an organisation. This course teaches delegates how to systematically prioritise quality and consistency in your line of work.

**This course is delivered virtually through the GTA, tutor led in real time.**

## Course Tutor

**IT Governance - A GRC Solutions Company**

IT Governance - A GRC Solutions Company is a professional services company, founded in 2002, with a wealth of consultancy skills that originally focused on information security/cybersecurity standards, notably ISO27001. Their consultants have extensive practical experience of designing and implementing management systems and help to develop the skills needed to deliver best practice and compliance in an organisation. The company has an impressive track record having helped well over 130 clients over the years to successfully gain the coveted ISO27001 certificate, proving their compliance with one of the most demanding management system standards. They have since developed their offerings into various other management disciplines and now provide a comprehensive single source of information, advice, books, tools, consultancy and training for IT governance, risk management, compliance and IT security objectives.
