

Digital Skills

Cyber Security & Privacy Awareness Seminar

Course Details

Price

£155.00

Length

2 hours (09:00–11:00)

Course Overview

This Seminar will offer an insight into exactly what cyber security means, what the threats are and how people and organisations can protect themselves. This is relevant for both work and home life; we also look at digital privacy and how we can begin to reclaim our privacy in today's cyber world.

Content

This session will cover the following topics:

- Key Definitions
- The Value of Information
- The Threats and Threat Actors

Flexible learning that works for you

E: admin@gta.gg | T: 224570 | W: gta.gg

- Case Studies
- Protecting your Digital Privacy
- Avoiding Social Engineering Scams
- Secure Authentication
- Securing Devices

Benefits

By attending this seminar, delegates will be given the knowledge to protect themselves and their organisation from common cyber threats and you'll be empowered to reclaim your digital privacy. This course is interactive. Discussion and participation are encouraged throughout.

Prerequisites

There are no prerequisites but if you would like to take part in the interactive elements, please bring a device that can be connected to the internet.

Next Steps

If you would like to book a place on this course please click on the **'Book Course'** button to the right of this page and login or register for a user account to complete your booking(s). Any queries please do not hesitate to contact us via admin@gta.gg or call us on 01481 224570.

If no date is scheduled for this course at the present time please click on the **'Register Interest'** button and login or register for a user account so that we can add you to our course interest register. This register allows us to contact our tutors and finalise dates for a course as soon as we have a few people who have expressed their interest, so the more delegates who register their interest, the sooner we can schedule a particular course.

Course Tutor

Nick Robilliard

Introducing Nick Robilliard, an Information Security Consultant at Resolution IT. With over 15 years of experience in technical support and information security within both the public and private sectors, Nick leads Resolution IT's cyber awareness training function. Nick is ISC2 SSCP and ISACA CRISC certified and is a certified assessor for Cyber Essentials & IASME Cyber Assurance. Within his role, Nick helps businesses implement effective information security management systems and enjoys educating clients on the importance of good cyber hygiene. He has a particular interest in how and why data is collected and used, and what we must do as individuals to protect our digital privacy.
