Director Knowledge Series 2026 – Session 2 – Cyber Security

Course Details

Price

£55.00

CPD Points

1.00

Length

1 hour session (08:30-09:30) 26 March 2026

Course Overview

Cyber Security risks are now firmly on the agenda of the Boardroom. Companies of any size can be attacked and face the risk of significant impacts. This session will explain the expectations now placed on Directors by their business partners and regulators and what questions to ask technical staff and suppliers.

Course Content

What will be covered in the session:

- The expectations in the recent wide-reaching UK Cyber Governance Code of Practice.
- The decisions that business leaders need to make and not have technical staff second guessing.
- How cybersecurity expectations should be defined for suppliers and business partners, and how their performance can be assured.

- Steps to take to prepare for a cyber incident and the role played by the business leaders during an incident.

Benefits

This session will provide an introduction to Cyber Security management at board level and will help in understanding the scope of issues that this involves. It will help the delegates to identify what they need to discover more about, both inside their own companies and beyond.
