Course Overview

The first session of the [ODPA Innovation & Data Protection Series | GTA](#) will demonstrate how data protection is a fundamental part of sustainable innovation. Using examples of different types of innovation, including the adoption of AI, this session provides an overview of how innovation and data protection overlap and how realising this improves your outcomes.

Please note that attendance can be in-person or virtual and booking the series of 3 sessions provides a discount of £25.

Benefits

Attending this series will help you view data protection as an enabler, rather than an inhibitor, of innovation.
