The online PRINCE2 Foundation course is a mixture of input and practical sessions, delivered by a PeopleCert approved trainer with practical experience of project management.

You should spend approximately 5-10 hours studying the pre-course material in order to be well prepared for the course.

Due to the intense nature of this PRINCE2 Foundation course, you should plan to commit approximately 1 hour each evening during the course for study and review.

You can choose to continue on the course for a further two days to complete the Practitioner level, or return at a later date to complete this and the PRINCE2 Practitioner Exam if you so wish.

This course will cover the following topics:

- Structured Approach to Managing Projects
- The Process-based Approach
- Business Case
- Organisation
- Plans
- Progress
- Change
- Quality
- Risk
- Practical Work

The syllabus for PRINCE2® was updated in 2017, which was the first major update to PRINCE2 since 2009. As of December 2017 all PRINCE2 courses offered by the GTA have been taught off the 2017 syllabus. If you have any questions about these changes [please read this PRINCE2 Update FAQ document in the first instance.](#)
